

# EDS Series Dry Screw Vacuum Pumps

 **EDWARDS**

# EDWARDS THE PARTNER OF CHOICE

**Edwards is a world leader in the design, technology and manufacture of vacuum pumps for industrial applications with over 95 years' history.**

We believe in delivering results that bring value to our customers by using our breadth of industry experience to identify and apply solutions. Using the most innovative and up-to date modelling techniques, we can optimise the pumping configuration for customers to provide a system design giving the maximum performance in the most reliable and cost-effective way.

# State-of-the-Art Technology Made Simple

Edwards' new range of EDS dry screw pumps features an innovative design which creates a new benchmark in the screw pump market. An intricate piece of engineering, built to the exacting standards and quality demanded by our customers, the new dry screw pump provides you with a trouble-free and cost-effective solution to meet your needs.

Water-cooled, the EDS range is robust and efficient. Its second-to-none contaminant handling capability in the harshest industrial and chemical conditions make these pumps the smart choice for your industry. Cool and simple, easy to service, high speed, the EDS vacuum pumps offers all the extra performance you need for the harshest and toughest industrial and chemical applications.

## EDS Dry Vacuum Pump Features:

- Plug and Play system
- Innovative and sturdy screw design
- Tapered variable pitch dry screws
- High speed operations
- Unparalleled uptime
- Quick pump downtimes
- Robust water cooling system
- High tolerance for particulates
- Air blast cooling variant option available
- Closed loop liquid cooling system
- Safe and flexible for chemical processing industry
- Configured for hazardous area installations
- Certified for global explosion standards

# Pump Technology

## SIMPLE

*Industry leading state of the art screw vacuum technology simply packaged*

- **Trouble free peace of mind:** ease of installation, systemisation, support and service
- **Pumping:** designed to be simply reliable

## FASTER

*Extra performance to meet modern day technologies*

- **Quick pump down times:** higher roughing speeds get the job done quicker
- **High pumping speeds:** gives more throughput where it matters

## FLEXIBLE

*Designed for a changing global market*

- **Safe and compliant:** easily configured for hazardous area installations
- **Engineer To Order:** basic modular building blocks for special pumping systems

## PROCESS CAPABLE

*Mechanism proven in the most demanding applications*

- **Extended MTBS:** purge protection options to prolong life on harsh processes
- **Increased Process Uptime:** survives process mishaps and contaminant ingestion

## ROBUST

*A truly industrial machine for the most challenging installations*

- **Installation options:** highly tolerant water cooled and air blast cooled standard products
- **Protection:** High IP ratings and easily cleanable protective canopies

Air cooled variant

# Applications

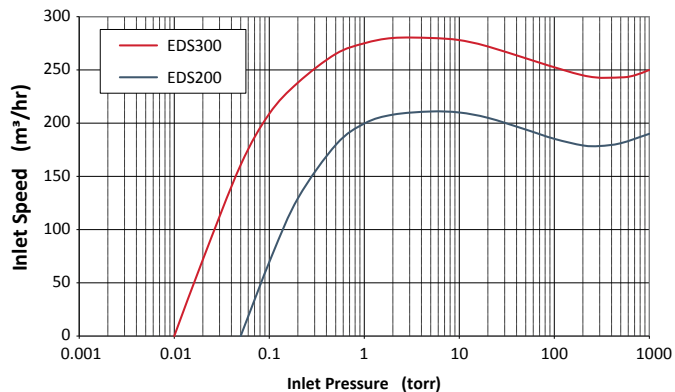

The EDS range is suitable for a range of applications in various industries including:

- Lithium Ion Batteries
- Freeze Drying
- Solar Cell Manufacturing
- Fine Chemicals
- Thin Film Deposition
- Pharmaceuticals
- Automotive Coating
- Industrial Glass Coating
- Heat Treatment
- Brazing
- Plastic Extrusion

# Performance curves

## EDS 200-300 (Metric)

## EDS 200-300 (Imperial)

# Technical Specifications

			Metric						Imperial											
			Water Cooled		Air Cooled		Chemical		Water Cooled		Air Cooled		Chemical
